

AUTEC Helps *TREASURE COAST LEXUS* Deliver The Exceptional Treatment That Lexus Customers Expect!

A State-Of-The-Art Dealership Facility Showcasing AUTEC's State-Of-The-Art Car Wash System

Treasure Coast Lexus prides itself on delivering the exceptional treatment that Lexus customers expect. In 2008 Dealer Principal Sandy Woods built one of the most state-of-the-art dealership facilities found anywhere, staffed by a dedicated team of quality people committed to serving customers the way they would treat guests at their home. Even the dealership's web site is leading edge, providing customers with a virtual tour of the facility and the same Lexus experience that customers would receive on site.

When Treasure Coast Lexus chose a car wash to compliment their investment, Sandy Woods chose AUTEC. "My staff visited a very high volume dealership with AUTEC equipment and we were impressed by the quality of the equipment and the quality of the wash.

And when my service manager checked the service reputation of BlueMar, our local AUTEC distributor, with another

dealership that BlueMar had serviced for many years, we knew that AUTEC and BlueMar were the right choice."

Treasure Coast uses AUTEC's AES-220 for quality, trouble-free operation as well as long-term efficiency and durability. The system designed specifically for auto dealers washes thousands of new and preowned vehicles. Its all stainless steel construction provides optimum structural integrity and dependable wet-environment operation. AUTEC helps Treasure Coast Lexus deliver the exceptional treatment that Lexus customers expect.
