

ATF-1 AUTECH TOUCH FREE

C-STORE • PROFESSIONAL CAR WASH • QUICK LUBE • AUTO DEALER

AUTECH's Touch Free System - ATF-1 is a high pressure, touch free system built with AUTECHnology from the ground up. Built with a stainless steel frame, stainless steel panel covers and heavy duty I-beam track, this fast, user-friendly car wash accommodates vehicles up to 90" tall and 120" wide. With programmable drive wheel speed and water based hydraulic operation, AUTECH's ATF-1 runs smooth as silk. Electric eyes establish each vehicle's profile for fast, economical, pin-pointed operation - Clean cars. Minimal waste.

Our nose and tail creep feature ensures that adequate time is spent on commonly "hard-to-clean" areas. Our 45 gpm pumping station feeds 48 zero degree nozzles on oscillating arms for advanced vehicle washing. Twenty zero degree oscillating nozzles, in the gantry, blasts wheels and rocker panels. ATF-1 includes additional chemical feed for wheels. Includes scenic graphics header panel and startup marketing support materials.

The ATF-1 comes ready for profitable add-on options like Triple Foam, Bug Buster, and Undercarriage Wash among others.

Benefits

25 horsepower high pressure pumping station pumps up to 45 gpm utilizing a space-saving, belt driven design. Consult factory for power requirements based on options selected.

48 oscillating, zero degree nozzles deliver up to 45 gpm. Twenty-four nozzles spray on the forward pass and 24 on the reverse.

In gantry to blast wheels and rocker panels.

Heated & specially formulated chemical presoak.

Heats a blend of water and presoak chemical for optimum cleaning.

Specially designed water-based hydraulic fluid makes the machine environmentally friendly in all circumstances.

Absolutely the most durable construction for dependable, long-term operation in harsh car wash environments.

Welded for superior structural integrity, ensuring enhanced machine longevity & performance.

Variable speed hydraulic drive for smooth operation.

No chains or belts to require maintenance.

Self-diagnostic software monitors car wash functions.

Allows most effective and efficient rinse.

Wired for interior and exterior instructional light package.

Keeps hydraulic oil warm to ensure consistently smooth equipment start up.
