

EZ Trak™

for the Automobile Dealer Market

- Control costs while securing access to your wash
- EZ Trak comes standard with 100 accounts accessed by codes or EZ Trak cards
- Password-protected programming and reporting
- 5 resettable counters to track usage
- EZ Trak is sold and installed through Unitec's authorized distributor network

Introducing EZ Trak, a drive-up entry system developed specifically for the automobile dealer market. EZ Trak can be accessed by cards (as shown below) or codes that are assigned to drivers or departments. EZ Trak also offers the dealer the option to market the car wash for use by rental companies, neighboring dealerships and businesses.

EZ Trak is designed to integrate with the dealer's local computer network. It requires 24 Volt AC or DC power, Intranet (Ethernet) connection, and a web browser. An optional power supply is available for applications where EZ Trak must operate from a 120 VAC power source. EZ Trak's overall dimensions are 56" H x 11" W x 7" D.
